*Tetsuji Seta "They repeat one's act forever" Beryllium copper 85×85×26mm  
2006 issued from "British Art Medal Society". 2006 collected by British Museum*

The first chance was participation in "British Art Medal Society student Medal project for Art college 2006" in 2006.  
We participated in "Student Medal project for Art college 2007" next year.

And, the round exhibition of "Student Medal project for Art college 2006-2007" was able to be achieved  
in the gallery of Nagoya University of Art and Design (It is written as following NUA) in 2007.  
This exhibition was an exhibition of the project participation student work,  
and the medal works of professional medal artist was British Art Medal Society (It is written as following BAMS) property right.  
This exhibition was introduced to the medal magazine that "The MEDAL No.52 Spring2008 p48-53" of BAMS issued.

We participated in "Student Medal project 2009" again exceeding the schedule at first in 2009.  
And, the works of NUA became a large element with the Falmouse University that was the host school of the exhibition  
in "Art on the edge where a modern medal had been felt for" that was the exhibition maintained by "Student Medal projects".

The world of "Contemporary Art Medal" gives creativity and reform abundant, good stimulation for us.  
As for us, "Casting" was done in my class, and it was also lucky to be able to produce the casting medal oneself.  
I wish to express my gratitude for Mr. Philip Booth (professor in NUA until 2009) and Mrs. Marcy Bourne Leavitt  
(organizer of BAMS student medal project). They gave us such a chance.
